**IRISH RENEWABLE
ENERGY AWARDS**
2025

Sponsorship Opportunities 2025

Irish Renewable Energy Awards

From a small wind farm on the coast of Mayo in 1992 to Ireland's first large-scale solar farm energised in County Meath in 2021, our colleagues have built an entirely new industry—one that employs thousands, cuts carbon emissions, and strengthens our energy security.

In 2025, for the first time, we bring together pioneers from across the renewables spectrum to honour the changemakers and innovators shaping Ireland's energy future. The Irish Renewable Energy Awards will celebrate those driving real progress—and lighting the way forward.

Sponsoring the Irish Renewable Energy Awards is more than just raising your profile—it's about aligning your brand with Ireland's renewable energy revolution and standing at the forefront of a cleaner, brighter future. Join us in celebrating progress, innovation, and what's yet to come!
