Wind Energy Ireland (WEI) membership

Wind Energy Ireland (WEI) is the leading Renewable Energy Body with over 150 members. Our primary purpose is to promote the use of wind power in Ireland both onshore and offshore.

Leading key stakeholder engagement WEI works closely with DCCAE, DHPCLG, CRU, ESB Networks, EirGrid, SEAI, and more to lobby on behalf of members and the industry.

What it means for you

At WEI we understand members needs, having over 25 years experience in the industry we strive to reach out to members through committees, working groups, conferences, training and networking events to understand individual positions in relevant and topical industry challenges. We offer members a unique voice in wind.

Membership of WEI means being part of the forum for companies active in the industry working together to research and find solutions to current and potential issues.

Why membership of WEI is a good idea

Influence

- One voice for the Irish Wind Industry
- Direct access to WEI committees and working groups
- Knowledge sharing via regular meetings with other companies in the industry
- Influence decisions via WEI's regular meetings with key stakeholders
- Opportunities to influence WEI responses to public consultations
- Represented in key forums via WEI's members such as the DS3 Advisory Council and Grid Code Review Panels

Information

- Exclusive access to the latest research and development
- Training courses in all renewable sectors via Green Tech Skillnet
- Regular policy updates and policy Foras
- Biweekly E-zines
- 30% discount on training for all members
- Stay up-to-date with the latest best practice at our Annual Health & Safety Conference
- Participate in working groups to keep up to date with progress and change in the industry
- Entitlement to vote at ordinary meetings and AGM

Network

- Networking platforms provided:

*(reduced to €0 on a 12month trial basis)

Testimonial

“WEI plays such a key role in the renewable sector, helping to disseminate policy changes, upskill members on areas of change and most importantly providing an opportunity to network across the sector. Their conference events provide a fantastic opportunity for us to meet with our customers in the sector and to engage with new ones.”

Karen Doyle

Head of Business Development, Gas Networks Ireland

Testimonial

“Membership of WEI provides a unique opportunity for Simply Blue Energy to exchange knowledge, share ideas, and potentially influence policy for the offshore wind sector. At a personal level, it has been invaluable to me as a newcomer to the industry in Ireland. It has helped to accelerate my immersion into a community of interest and working on a comprehensive range of issues, and to facilitate new, invaluable contacts and relationships.”

Val Cummins

Operations and Projects Director, Ireland, Simply Blue Energy Ltd

Testimonial

“For me, WEI is a classic example of the total being greater than the sum of the parts. The collective voice of WEI captures the essence of the wind industry in Ireland and speaks with credibility to our external stakeholders. It's that credibility which leads those outside of the industry to listen to what WEI says and, more importantly, trust their assessment.”

Gary Connolly

Offshore Wind Development Manager, Asset Development, ESB
